```java
package com.sailaja.Assignments;
import java.util.regex.*;

public class RegularExpressionCode {

public static void main(String[] args) {

    String pattern = "[a-z]+";
String check = "Java hello world";
Pattern p = Pattern.compile(pattern);
Matcher c = p.matcher(check);

while (c.find())
    System.out.println( check.substring( c.start(), c.end() ) );
}
}
```
